PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering graduate (AI) from Adi Shankara Institute of Engineering and Technology, Kalady. Skilled in Python, AWS, and AI/ML with hands-on experience building productivity-enhancing software; passionate about analyzing trends and solving real-world problems. I aim to apply my technical expertise and collaborative mindset to drive innovation and success in my future endeavors. I have done two socially relevant project using Machine Learning algorithms. Seeking opportunities to drive online growth and engagement.

EDUCATION

BTech- Adi Shankara Institute of Engineering and Technology, Kalady

Computer Science(Artificial Intelligence) -

Nov 2021–May 2025

SKILLS

Python, C, HTML, CSS, JS, Java , OOPs,
ML Algorithms , AWS, AI algorithms , Deep learning, C
Github - <https://github.com/TomDavis2003>

WORK EXPERIENCE

Loanitol , Palarivattom

May 2025 - Present

Technical Executive- Product Development

- I own L2/L3 support for our Python finance tools: reproduce issues, deliver fixes or workarounds, and coordinate patches with engineering and external IT.
- I write automated triage scripts and regression checks to find root causes faster and prevent repeats.
- I build and maintain our internal knowledge/onboarding site (HTML/CSS/JS) so new hires ramp up quickly and support resolves problems on first contact.
- I manage AWS production (EC2, S3, IAM): provisioning, access, basic monitoring, and hands-on incident triage and deployments with external teams.
- I lead incident response — keep runbooks current, run RCAs, and push preventive changes to reduce recurrence.
- I bridge customers, PMs, QA, engineering, and vendors: turn reports into reproducible tickets, triage by impact, and drive fixes to meet SLAs.
- I mentor junior engineers and create clear runbooks and docs so knowledge stays with the team.
- I coordinate all technical activities touching support, working closely with external IT and vendors to keep systems healthy and projects moving.
- Python (Libraries, frameworks), HTML, CSS, JS, AWS (S3, EC2, IAM).

PROJECTS

Kidney Transplantation using Explainable AI(May 2024 - Aug 2024)

Explored the use of XAI to enhance kidney transplant outcomes and organ scarcity. Utilized Random Forest and Gradient Boosting algorithms to predict graft survival and complication risks . We also added SHAP for explainability which shows what factors affected the result. We got this paper published in the IEEE Xplore after presenting it at 11th ICACC conference conducted at RSET, Kakkanad.

<https://ieeexplore.ieee.org/document/10845738>

Tools Used: Python, Jupyter Notebook, Random Forest, Gradient Boosting, SHAP, XAI

Prompt Injection Attack Detection System(July 2024 - April 2025)

Developed an AI-driven system to detect prompt injection attacks using LSTM (Long Short-Term Memory) networks for sequential text analysis. Integrated SHAP (SHapley Additive exPlanations) to enhance model interpretability by identifying which input tokens contributed to attack detection. Focused on improving security and transparency in large language model (LLM) interactions.

Leaf Disease Detection (Feb 2024 - May 2024)

Built a CNN-based model achieving 91 percent accuracy in detecting leaf diseases in real-time.
Enhanced model accuracy through data preprocessing and augmentation on diverse leaf images.

Tools Used: Python, Machine Learning

INTERNSHIP

Internship Certification in **Cybersecurity and Ethical hacking**

CERTIFICATIONS

Generative AI - 30 hour course certification
Fundamentals of AI (NPTEL Course)
Artificial Intelligence Foundation Certification by Infosys Springboard
Artificial Intelligence Primer Certification by Infosys Springboard
Minor Degree in Robotics and Automation.
Wheeled Mobile Robotics (NPTEL Course)

HONORS & AWARDS

Participated at National Entrepreneurship Conclave 2.0, 2024(NEC2.0), Entrepreneur-ship Bootcamp.
Campus Head - Game Development Club
Paper publication at 11th ICACC Conference (IEEE)
Co-author of a paper presented at ICTEST25
Cybersecurity and Ethical Hacking Internship at FACEIN Ltd
NSS Volunteer
Treasurer AI Club
Coordinator- Brahma'24, Brahma'25, Prayag
